

School Sport Portal — One-Pager

The pitch in one line

Enter your student data once. Run every school sport from it.

The problem every school PE coordinator knows

Each year, every school in Australia re-enters its students into a different spreadsheet for **every single sport**: cross-country, athletics, swimming, footy, netball, soccer. Carnival day means clipboards at the finish line, hand-written times, and a Friday-night transcription session into a results PDF that nobody reads.

District carnivals are worse. Eight schools email each other Excel sheets. The convener pastes them into a master, allocates bibs, prints lane sheets, then chases down half a dozen wrong age groups before the starting gun goes off.

Parents leave the carnival without knowing their kid's time. Coordinators leave with an evening's worth of data entry ahead of them.

The fix

School Sport Portal is one roster, one timing app, one public results page — for every school sport, every season, every year.

Plain old spreadsheets	School Sport Portal
Re-key students per sport	One roster, all sports
Hand-time on a stopwatch	Phone-tap timing — Marshal, Lane, Video Finish modes
Friday-night transcription	Public results live as each finisher crosses
Email Excel sheets between schools	Shared roster across district / division
Results PDF on noticeboard	Public results page parents check on their phone

How it's priced

\$1 per enrolled student per year. That's it. No setup fee, no per-event charge, no module add-ons.

A 440-student school pays **\$440/year** for unlimited carnivals, unlimited sports, unlimited admins.

Three products, one platform

- **School Sport Portal** (schoolsportportal.com.au) — the roster, calendar, and reporting hub.
- **Carnival Timing** (carnivaltiming.com) — race-day app, on any phone or tablet.
- **SportCarnival** (sportcarnival.com.au) — public results page (opt-in per carnival).

Built and operated in Australia

- All data hosted in Australia (Cloudflare Sydney).
- Aligned with the Australian Privacy Principles.
- Privacy Impact Assessment, Data Processing Agreement, and parental consent template all provided to schools at no cost.
- Insured: Cyber Liability \$1M, Professional Indemnity \$2M, Public Liability \$20M.

Who's already using it

Williamstown Primary School runs cross-country, athletics, and swimming on it. **Williamstown District** uses it as the live results portal for the 2026 District Cross-Country (8 schools, 192 runners). Case study available — see `WPS_CASE_STUDY.md`.

Try it in 5 minutes

- Public demo: <https://sportcarnival.com.au>
- Free trial: hello@carnivaltiming.com — we'll send you a Carnival Timing access code and walk you through setup.
- Or just sign up: <https://schoolsportportal.com.au>
