We act as a data processor on behalf of schools for student performance data. Schools remain the data controller under the *Privacy Act 1988* (Cth) and relevant state legislation. 7. Accuracy of Results —————

Carnival Timing is a software tool designed to assist with manual race timing. We make no guarantee that recorded times are officially accurate for purposes beyond school sport carnivals. Results recorded by our system should be verified by a qualified official before being used for any formal selection, record-keeping, or competitive purpose beyond the school carnival level.

Luck Dragon Pty Ltd accepts no liability for decisions made by schools, districts, divisions, or regions based on timing data recorded using our products. 8. Service Availability —————

We aim for high availability but do not guarantee uninterrupted access. Our products run on Cloudflare's global network, which has strong uptime guarantees, but maintenance, updates, or unexpected outages may occur. We are not liable for losses arising from service unavailability.

If a paid service is unavailable on the day of your carnival due to our error, we will provide a refund as described in Section 3. 9. Intellectual Property —————

All software, designs, text, and branding on our platforms are owned by Luck Dragon Pty Ltd. You may not copy, reproduce, or create derivative works from any part of our products without prior written consent. Student performance data entered by schools remains the property of the relevant school. 10. Limitation of Liability —————

To the maximum extent permitted by Australian law, Luck Dragon Pty Ltd's total liability to you for any claim arising from your use of our products is limited to the amount you paid us in the 12 months preceding the claim (or \$100 if you have not paid us anything).

We are not liable for indirect, incidental, or consequential losses including lost data, missed carnival events, or decisions made based on our results.
